

Residents & Landowners  
Sandigo, NSW 2702

**Project Update: October 2025**  
**Strontian Solar Farm and BESS Project**

Dear Residents & Landowners,

Grupo Cobra is developing the proposed Strontian Solar Farm and Battery Energy Storage System (BESS) project, located at Strontian Road, Sandigo in the Narrandera Local Government Area. We would like to provide a project update to surrounding residents and landowners.

The Scoping Report for the project has recently been submitted to the NSW Department of Planning, Housing and Infrastructure (DPHI) and is now under review. The Scoping Report submission represents a key step in the development process, before obtaining the Secretary's Environmental Assessment Requirements and commencing the preparation of the Environmental Impact Statement (EIS). The project team will then prepare the EIS, which will include detailed technical assessments of environmental and social impacts, as well as community consultation outcomes. It is anticipated that the EIS will be completed in March-April 2026.

The project has also been referred to the Commonwealth Department of Climate Change, Energy, the Environment and Water (DCCEEW) under the Environment Protection and Biodiversity Conservation (EPBC) Act.

We value input from neighbouring community members as the project progresses. To help gather feedback, we have launched a brief community survey, accessible at [www.strontiansolarfarm.com](http://www.strontiansolarfarm.com) or the QR code below. The project website provides further details on the proposal and weblinks to the Scoping Report and to the EPBC Referral.

Should you have any questions or wish to discuss the project further, please feel free to contact us directly using the details below. We greatly appreciate your time and engagement.

Kind regards,
